**DUCK AND DUCKLING**  
FROM STORY TO OBJECT

A family of ducks stopped traffic in Copenhagen. It was in the neighborhood of Frederiksberg in 1959, precisely during rush hour, that a family of ducks waddled into traffic, prompting a police man to immediately stop all cars and pedestrians so the ducks could cross unharmed. This charming moment made headlines and wooed the hearts of all Danes.

Hans Bølling, enamored by the story that he was inspired to create the Duck family, a perfectly refined product handmade out of solid teakwood.
