

CIRCLE BOWL
FORGOTTEN GEM

Never before produced since its conception in 1954, the Circle Bowl is designed as a perfect circle, yet visually it creates the illusion of an ellipse. The sides of the bowl are precisely balanced, rising as much as they recede, creating perfectly corresponding lines of the bowl all around. The uniformity creates striking reflections for all things placed within.

Crafted from the highest quality, mirror polished stainless steel, the Circle Bowl's organic shape is formed by walls of 1 mm thickness.

Material

Mirror polished stainless steel

Dimensions

Circle Bowl 20: D20 cm

Circle Bowl 30: D30 cm
