

OWL
MYSTIC WISDOM

Designed in 1960, Paul Anker Hansen's Owl has a mobile head that rotates to reveal new expressions. Be it wonder, contemplation or curiosity, the Owl echoes our own thoughts and offers a keen insight into what we perceive in every moment of every day.

For years, the Owl was made by hand by Paul Anker Hansen. The Owl has inserted wooden eyes. The head can move seamlessly in multiple directions to create various expressions, due to a magnet.
