#### PK-600 AND PK-BOWL SCULPTURAL DESIGN

In 1963, Poul Kjærholm designed the Fredericia Town Hall and created PK-600, a large, 250 kg black marble bowl. Today it is produced only 10 per year according to the original drawings by the architect.

In response to the great success of PK-600, Kjærholm designed its offspring, the PK-Bowl, so that everybody could enjoy it as a part of their own household. Made of granite, the smooth inside and rough outside of PK-Bowl symbolizes the contrast between the feminine and masculine.

#### Material

PK-600: Black Nero Marquina marble

PK-Bowl: Black granite

#### Dimensions

PK-600: L60 W60 H30 cm

PK-Bowl: L15 W15 H7 cm
