

PK-MARBLE AND PK-MINI
TIMELESS PIECES OF ART

PK-Marble is a sculptural piece related to Poul Kjærholm's PK-600 and PK-Bowl. PK-Marble elegantly combines the timeless Nero Marquina marble of the PK-600 with the size of the PK-Bowl. Its smooth and rounded inner black marble surface softly reflects incoming light, adding contrasts to the raw and unpolished exterior.

PK-Mini consists of two bowls made of black Nero Marquina Marble and white Volakas Marble. PK-Mini embraces contrasts: between black and white, the curved veins and the solid stone.
